# INTERNATIONAL PHARMACY SUMMER SCHOOL

## INTRODUCTION

International Pharmacy Summer School 2024 (IPSS 2024) is the 10<sup>th</sup> pharmacy summer school in Indonesia and an annual event organized by the Faculty of Medicine and Health Sciences of Universitas Muhammadiyah Yogyakarta, Indonesia. It will be held on June 30<sup>th</sup> – July 8<sup>th</sup>, 2024, at the Universitas Muhammadiyah Yogyakarta. It is a unique summer school program combining academic and student activities. It aims to enable participants to interact and work with related professionals, get more information about herbal cosmetics and many interesting travel experiences as well as memorable Indonesian cultural learning. IPSS 2024 has so many exciting activities, including educational and non-educational. The educational activities involve *“Safeguarding Integrity And World Health: A Halal Perspective in The Pharmaceutical Industry.”* Participants will get lectures from experts and professionals. Participants also have other educational activities, such as IPE (Interprofessional Education), tutorials, laboratory activities, Community Health Centre visits, and social work. The non-academic activities involve visiting many cultural places in Yogyakarta, such as the Borobudur Temple and Beach. Through this event, we hope you can explore new insights and find new relationships to help you face the pharmaceutical world. We hope you can participate in this event and enjoy the beauty of Indonesia.

Best Regards,

Committee of IPSS 2023

## INDONESIA AND YOGYAKARTA

Republic of Indonesia is a country in Southeast Asia, located on the equator and between the Asia and Australia continents and between the Pacific and Indian oceans. Indonesia, since it lies between two continents and two oceans, is also known as the Archipelago Islands. Consisting of 17.508 islands, Indonesia is the largest archipelago in the world that spreads from Sabang to Merauke. The country is passed by the equator line, making it has a tropical climate with two seasons, dry and rain season. The tropical climate makes Indonesia has one of the greatest biodiversity in the world, the second after Brazil. You can find some biodiversities, anything from rain forests, great lakes, long rivers, high mountains, amazing under-water corals, etc., in Indonesia. Each corner in Indonesia has a lot of exciting things.

The borders of the country include Malaysia on Borneo Island, Papua New Guinea on Papua, and East Timor on Timor Island. Other neighboring countries include Singapore, Philippines, Australia, and the union territory Andaman and Nicobar Islands in India. Indonesia, from Sabang to Merauke, consists of distinct ethnics, linguistics, and religious groups. Java is the largest tribe and most politically dominant. Indonesian national motto, “Unity in Diversity”, represents the country.

Indonesia has 38 provinces, including Yogyakarta (or locally called Ngayogyakarta Hadiningrat). Yogyakarta is one of famous provinces in Indonesia, not only known well by local, but also international tourists because of its nature and culture. Yogyakarta was founded by Prince Mangkubumi (Sultan Hamengku Buwono I) in 1755 as a result of Giyanti Agreement. It grew up into a city rich in Javanese cultures and arts. The centerpiece of the development of art and culture is the empire. A variety of classical Javanese arts, such as dances, songs, geguritans, gamelans, paintings, literatures, and carvings, were developed from the palace. Later, the arts become folklores. The unity of the community and artistic values is strong, making Yogyakarta never runs out of trained artists. In addition to cultures, ancient architectural treasures, such as Water Castle, Sultan Palace, Pakualaman Palace, Prambanan Palace, and various Museums, also have their own magical things for the tourist, both local and international. These entire exciting things make Yogyakarta becomes the second primary regional tourism destination.

## UNIVERSITAS MUHAMMADIYAH YOGYAKARTA

Universitas Muhammadiyah Yogyakarta (UMY) is a university in Yogyakarta, one of Indonesia's most beautiful cultural cities. UMY is one of the universities owned and managed by the "Center of Muhammadiyah Council," one of the religious mass organizations in Indonesia. UMY was founded on March 26th, 1981. It has seven major faculties: Faculty of Islamic Religion, Faculty of Economy, Faculty of Law, Faculty of Social and Political Sciences, Faculty of Medicine and Health Sciences, Faculty of Agriculture, and Faculty of Engineering.

Ranked 130 worldwide and 78 in Asia, making it one of the best universities in Indonesia. UMY is also well-known for its medicine, scored A by BAN-PT (National Accreditation Agency of Universities), and well-known for producing many talented alumni that spread around Indonesia. As one of the best universities in Indonesia, UMY has many achievements, both national and international, some of them are IGA Green Award, QS Star Facilities, QS Star Teaching, QS Star Institution, and SINTA Award for Research. Not only all the facilities, but UMY also has a supportive environment for any purpose. UMY has many students from various backgrounds, making it a medium to learn more and gain more insight. Having a tagline "Worldwide Youth", Muhammadiyah University of Yogyakarta is ready to think globally and act locally.

## IPSS PROGRAM

### A. Event Overview

IPSS (International Pharmacy Summer School) is an annual event organized by the Pharmacy Study Program, Faculty of Medicine and Health Sciences of Universitas Muhammadiyah Yogyakarta, Indonesia. This year is the 9th time this program has been held. This program will combine academic and non-academic experiences to introduce the learning process of the UMY pharmacy study program to domestic and international students. Some of the programs offered by this event are:

- Educational Program

- 1) Stadium General

General stadiums are public lectures filled in by professional lecturers who discuss topics according to the event's sub-themes to broaden participants' knowledge.

- 2) Tutorial

Class discussion by a teacher (tutor) for a student or a small group of students to discuss and resolve a pharmaceutical case.

- 3) Interprofessional Education

Practice collaboration between two or more professions health that learns from each other's roles and perspectives of other health professions as outlined in a case discussion. This activity aims to improve collaboration skills and the quality of health services.

- 4) Laboratory Activity

Activities in practice or application of pharmaceutical theory, especially in making herbal cosmetics.

- 5) Medical Tour

Activities that invite participants to go around and get to know the facilities and infrastructure of the Pharmacy Study Program, Universitas Muhammadiyah Yogyakarta.

# INTERNATIONAL PHARMACY SUMMER SCHOOL

## 6) Pharmacy Social Activity

Social activities in the form of visits to schools in Yogyakarta. This activity aims to introduce the pharmaceutical profession and provide information to students regarding herbs or other relevant topics.

## 7) Assessment

The computer-based exam uses Multiple Choice Questions (MCQ), which aim to test participants' understanding of the material during the activity.

## ● Non-Educational Program

### 1) Welcoming and Closing Ceremony

The welcoming ceremony symbolizes welcoming participants and opening the event symbolically. This activity will be held with a typical Yogyakarta culture as a cultural introduction to participants.

### 2) International Night

IPSS facilitates the cultural exchange of each country of the participants by introducing traditional food. This event is designed to be warm and is expected to strengthen the relationship between participants.

### 3) Learn Indonesian and Sharing Time

Activities introducing Indonesian and Javanese as a means of introducing culture to participants. Participants will also present their respective languages and cultures to other participants.

### 4) Tour de Yogyakarta

This activity will visit various tourist attractions in Yogyakarta, packaged in natural and cultural tourism. In addition, participants were also invited to visit the natural product industry in Yogyakarta as a form of further learning.

### 5) Farewell Ceremony

This activity is the closing of the entire series of IPSS 2023 events. This activity includes symbolic closing, cultural performances and the IPSS Award.
