物理系自113學年度為不諳中文之僑生・外籍生特別開設\_英授\_舊物(一)・(二)的課程(夜間開授不易衝突)；其課程大綱同於一般中授之校共同課程: 舊物(一)(二)・除僑生・外籍生之外，並有以下情況的同學・亦歡迎報讀\_英授\_舊物(一)(二)・

Starting from the 2024 academic year, Physics department has opened Evening General Physics (I) and (II) courses, specially designed for international and overseas Chinese students who may not be familiar with Chinese. Since the courses are held in the evening, they are less likely to conflict with other required courses. The syllabus is the same as the regular Chinese-lectured General Physics (I) and (II), which are part of the university's common core.

Good morning Mr. Jen,  
May I confirm with you that for our thesis, we are required to do it for 2 semesters and by the end of the second semester that we have taken our thesis, we are required to present our work to a panel of 3 professors right? Is there any other requirements that is needed? Thank you!

Yes, that's right Mr. Jen

It is correct. Are you taking "Thesis (2)" for the first time in the fall semester?

2025年8月25日 上午10:28

Then you'd better find an advisor and finalize your topic as soon as possible. You need to obtain your advisor's signature on the registration form for enrolling this course.

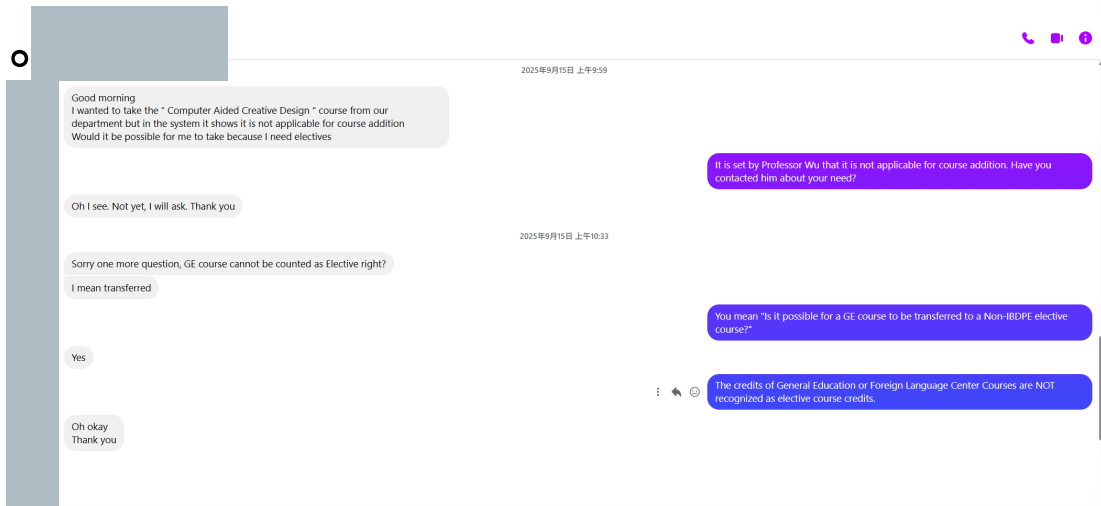

I see, the deadline is September 15th 4 PM right? I am most probably will be back at Tainan at September 13th and will be able to submit the form at September 15th, is physical signature of our department's professor and my advising professor needed or the digital one is okay?

Got it, thank you Mr. Jen!

the digital one is okay.

Important Notice for the class of Interdisciplinary Principles in Sustainability Development on May 19

Dear students,

According to Professor Harrison's email, all students enrolled in his course are invited to join a field trip on May 19th.  
(Professor Harrison) have asked students who have a conflict to ask for permission to take an official leave from their class for that day.  
If taking a leave is not possible, the students do not have to attend the field trip.  
"As field trips are valuable learning experiences..." as he adds.  
As he mentioned above, you have to either take an official leave from your class to attend the field trip or forgo this opportunity.

We appreciate your attention to this matter and encourage you to make the necessary arrangements as soon as possible. If you have any questions, please do not hesitate to reach out.

Sincerely,

Yu-Kai Cheng (Ms.)
