Your university is a member of the [Worldwide Universities Network \(WUN\)](#). WUN brings together 25 leading comprehensive research universities in a collaborative partnership to advance research and education on major global challenges. Capitalising on the geographic and cultural diversity of members across six continents, WUN enriches their shared experience, and brings together constellations of talent to address problems of real significance.

As part of its commitment to nurture research talent, WUN offers early career researchers (ECRs) from member universities webinar-based training sessions on transferrable skills related to their career development, and to provide a platform for ECRs to meet colleagues from around the network.

SESSION TOPIC

What is your Research Vision?

TOPIC SUMMARY

This session will help you to refine your personal research vision to guide the development of your research strategy and potential funding applications. This workshop will take you through the value of having a research vision and strategy, the elements of a vision and tools for developing a strategy. You will have the opportunity to draft a research vision and identify key drivers for your research strategy.

By the end of this session, you should be able to:

- * Identify the elements of a vision
- * Succinctly describe your vision for your research
- * Identify elements of your strategy for delivering your research vision.
